Product dimensions (D x W x H), inches	18.5 x 14.56 x 14.17
Shipping weight, pounds	27.5

*May vary due to variations in paper

This creasing and perforating machine is designed for the final processing of graphic materials up to 12.6" x 17.7" in paper size. Simple hand operated machine with a working width of 12.6" allows a crease and/or perf to be made with the same quality as the electric GoCrease™ 4000/SEMI. Eccentric wheel of operating mechanism demands only minimum effort to process the paper, even for heavy stocks or laminated documents. Skew paper can also be creased/perforated due to thumb wheel angle adjustment of side guide. The GoCrease 3000 has an exchangeable creasing and perforating knife, as well as 3 different creasing channel widths.

Features

SIDE ADJUSTMENT

Side adjustment wheels for quick exchange of paper position.

SIDE GUIDE

Side guide with skew adjustment for ease of use.

ERGONOMIC BAR

Ergonomic bar for easy creasing with minimum use of force.
